DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I: Claims 1-3, 8-10, 13, and 15, drawn to an apparatus and a method comprising subject matter classified in Class 382 subclass 268.

Group II: Claims 4-7, 11-12, 14 and 16, drawn to a apparatus and method comprising subject matter classified in Class 375 subclass 240.29, and/or Class 348 subclass 466.

2. The inventions of Groups I and II are distinct from the each other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the Invention II has a separate utility (i.e., filter and adder) while Invention I does not. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and required the different field of search for each of these inventions, restriction for examination purposes as indicated is proper.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
